

## Poresta® Loft and Loft S

The inspiration of straight lines.

# Poresta® Loft and Loft S

## Poresta® Loft

The floor level shower system with finished surface and elegant point drainage. Available in many rectangular and square dimensions.

## Poresta® Loft S

The all-round infinitely variable shower element with discreet shower channel. Available in many rectangular and square dimensions.

### Perfect harmony

Matt shimmering - the surfaces of the new Poresta® Loft and Loft S make a perfect impression.

Flush to the floor all round with defined gradients - the shower area is therefore harmoniously integrated into the bathroom.

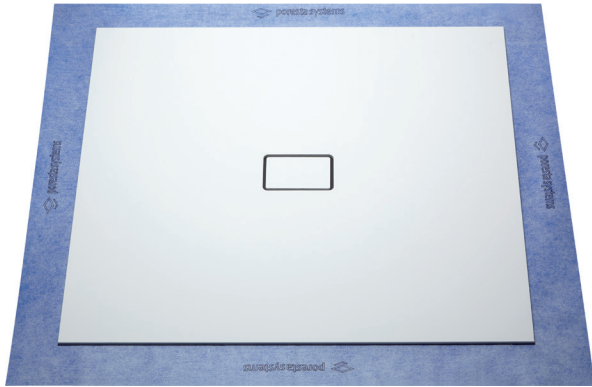

The perfect surface shaping directs the shower water into the discreetly hidden outlet.

The fine mineral composition of the Loft and Loft S ensure a silky feeling for the feet.

Surfaces and outlet are easy to maintain and simple to clean.

# Technical data

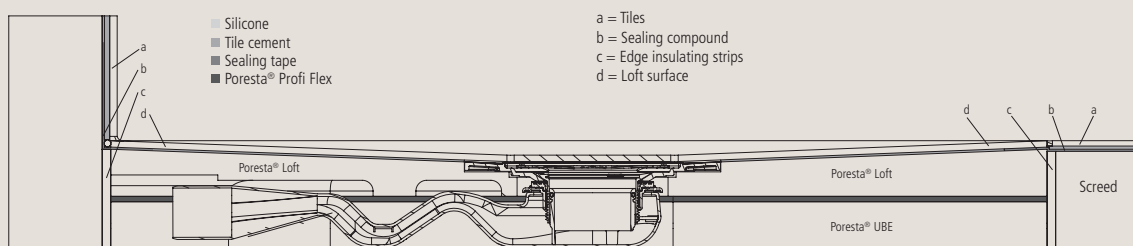

**Poresta® Loft**

- floor level shower system, prefabricated at the factory with mineral composite surface made of solid material in white, rectangular outlet cover made of mineral composite, centred built-in drainage unit and factory integrated sealing sleeve with preformed corners for sealing to adjoining walls/floors, with preformed gradients of 2.0 – 2.5%
- Low net weight
- Complete system with high quality surfaces made of mineral composite, horizontal or vertical outlet and circumferential sealing sleeve
- horizontal super-flat outlet supplied; vertical outlet optional
- Drainage capacity of horizontal super-flat outlet: 36 l/min.
- Drainage capacity of vertical outlet: 42 l/min.
- Connection in accordance with DN 50
- high stability and tread resistance due to the Poresta® support plate
- Certificated R9 slip prevention
- DIN 4109/VDI 4100: There are test certificates or statements from the Fraunhofer Institute for building physics on the sound levels to be achieved (water impact noise and footfall sound insulation) when installing with Poresta® sound insulation accessories
- Accessible for wheelchairs

**Poresta® Loft S**

- floor level shower system with linear drainage, prefabricated at the factory with mineral composite surface made of solid material in white, linear drainage cover made of mineral composite, Decentred built-in channel unit and factory integrated sealing sleeve with preformed corners for sealing at adjoining walls/floor, with preformed gradient of 1.5 – 2.5%
- Low net weight
- Complete system with high quality surfaces made of mineral composite, horizontal or vertical outlet and circumferential sealing sleeve
- With horizontal outlet; vertical outlet optional
- Drainage capacity of horizontal outlet: 30 l/min.
- Drainage capacity of vertical outlet: 30 l/min.
- Connection in accordance with DN 50
- high stability and tread resistance due to the Poresta® support plate
- Certificated R9 slip prevention
- DIN 4109/VDI 4100: There are test certificates or statements from the Fraunhofer Institute for building physics on the sound levels to be achieved (water impact noise and footfall sound insulation) when installing with Poresta® sound insulation accessories
- Accessible for wheelchairs

# Item summary

	Dimensions [mm]	Minimum installation height* [mm]	Itemnumber
Shower system Poresta® Loft	800 x 800 x 52	96	23.001.000
	900 x 750 x 51	97	23.001.001
	900 x 800 x 51	98	23.001.002
	900 x 900 x 51	98	23.001.003
	1000 x 800 x 52	98	23.001.004
	1000 x 900 x 55	101	23.001.005
	1000 x 1000 x 55	101	23.001.006
	1100 x 800 x 53	99	23.001.007
	1100 x 900 x 56	101	23.001.008
	1100 x 1000 x 56	102	23.001.009
	1200 x 800 x 54	100	23.001.010
	1200 x 900 x 56	101	23.001.011
	1200 x 1000 x 56	102	23.001.012
	1200 x 1200 x 56	104	23.001.013
	1300 x 800 x 50	102	23.001.014
	1300 x 900 x 52	104	23.001.015
	1300 x 1000 x 52	104	23.001.016
	1400 x 800 x 51	103	23.001.017
	1400 x 900 x 52	104	23.001.018
	1400 x 1000 x 52	104	23.001.019
	1500 x 800 x 55	104	23.001.020
	1500 x 900 x 56	105	23.001.021
	1500 x 1000 x 57	105	23.001.022
	1600 x 800 x 56	105	23.001.023
	1600 x 900 x 56	105	23.001.024
	1600 x 1000 x 57	106	23.001.025
	1700 x 800 x 55	106	23.001.026
	1700 x 900 x 56	108	23.001.027
